

WE ARE LOOKING FOR

QA Engineer at Stremio

QA Engineer at Stremio

Hello there, are an innovative and fast growing Bulgarian company developing own products.

With about three million users around the world, our product Stremio is on the focus of our efforts.

Stremio is a video streaming hub, that aggregates video content from different sources including movies, series, live TV and video channels.

Currently we are looking for an experienced QA Engineer to join our team.

The QA Engineer position at Stremio requires a person with strong programming skills and passion for quality software!

Main Requirements and Activities

- ◆ 2+ years test automation experience;
- ◆ Solid understanding of quality assurance methodologies;
- ◆ Very good understanding of OOP concepts, design patterns and best coding practices;
- ◆ Unit tests: experience with unit testing frameworks (for example: mocha, chai, tape);
- ◆ Integration tests: experience with implementing integration tests for a variety of stacks (for example HTML5+react.js);
- ◆ Shell scripting: bash;
- ◆ Bonus: shell scripting: PowerShell;

If all the makes sense to you, we are looking forward meeting you in our office!
Interested? Send us your CV straight away: office@stremio.com

Only short-listed applicants will be contacted.
